

## Defense AT&L November-December

If a soldier shoots it, drives it, flies it, wears it, or eats it, U.S. Army Materiel Command provides it. The latest issue of Defense AT&L features an interview with Gen. Benjamin S. Griffin, commanding general of AMC.

This issue also presents, in its entirety, the first major public statement of USD(AT&L) Kenneth J. Krieg—"Global Cooperation: From Idea to Reality," an address to ComDef 2005, the nation's 23rd annual conference on international defense cooperation.

And making its Defense AT&L debut is a new regular feature: "Spotlight on DAU Learning Resources."
